

Scenario B

This map displays the Mediterranean Sea and surrounding landmasses, including Europe, North Africa, and the Middle East. A yellow boundary line, marked with numbered points (1-62), delineates a specific area of interest. A red boundary line follows the coastlines of the sea. The map features bathymetric shading to represent ocean depths and topographic shading for land areas. A legend in the bottom right corner identifies the symbols used: a yellow line for the 'Boundary', a red line for the 'Coastline', and a blue line for the '1000m Depth Contour'.
