

**ECOREGION**      **Widely distributed and migratory stocks**  
**STOCK**            **Orange roughy (*Hoplostethus atlanticus*) in the Northeast Atlantic**

**Advice for 2012**

The advice given in 2010 for orange roughy assessment units is biennial and valid for 2011 and 2012 (see ICES, 2010). Therefore, ICES advises that no directed fisheries for this species and measures to minimize bycatch should be taken.
