

**ECOREGION**      **Widely distributed and migratory stocks**  
**STOCK**            **Roundnose grenadier (*Coryphaenoides rupestris*) in the Northeast Atlantic**

The advice given in 2010 for roundnose grenadier assessment units is biennial and valid for 2011 and 2012 (see ICES, 2010). The advice is summarized in the table below.

**Sources**

ICES. 2010. Roundnose grenadier (*Coryphaenoides rupestris*) in the Northeast Atlantic. Report of the ICES Advisory Committee, 2010. ICES Advice, 2010, Book 9: 217–299.

**Table 9.4.15.1**      Roundnose grenadier in the Northeast Atlantic. Summary of advice for different assessment units.

Year	ICES advice Division IIIa	ICES advice Subareas VI, VII, and Divisions Vb, XIIb	ICES advice Mid-Atlantic ridge <sup>1</sup>	ICES advice All other areas <sup>2</sup>
2003	Significant reduction in effort	Significant reduction in effort	Fishery should not be allowed to expand, unless proven to be sustainable	Fishery should not be allowed to expand, unless proven to be sustainable
2004	Biennial	Biennial	Biennial	Biennial
2005	Fishery should not be allowed to expand, unless proven to be sustainable	50 % reduction in effort in relation to 2000-2002 levels	Fishery should not be allowed to expand, unless proven to be sustainable	Fishery should not be allowed to expand, unless proven to be sustainable
2006	Biennial	Biennial	Biennial	Biennial
2007	Constrain catches to 1000 t	Constrain catches to 6 000 t	Fishery should not be allowed to expand, unless proven to be sustainable	Fishery should not be allowed to expand, unless proven to be sustainable
2008	Biennial	Biennial	Biennial	Biennial
2009	Constrain catches to 1000 t	Constrain catches to 6 000 t	Fishery should not be allowed to expand, unless proven to be sustainable	Fishery should not be allowed to expand, unless proven to be sustainable
2010	Biennial	Biennial	Biennial	Biennial
2011	Same advice as previously	Less than 6000 t and a further reduction in catches from recent levels should be considered	Fishery should not be allowed to expand and a reduction in catches should be considered	Fishery should not be allowed to expand, reduction in catches should be considered
2012	No new advice, same as 2011	No new advice, same as 2011	No new advice, same as 2011	No new advice, same as 2011
