

Bibliographie des publications produites en 1977  
intéressant les Membres du Comité des Poissons  
de Fond

Allemagne (République Démocratique)

ERNST (P.), 1977.- Investigations on Arcto-Norwegian cod in 1975.- Ann. Biol.,  
32, 1975 (1977).

U R S S

I

DIMITROVA (V.V.), 1977.- Fecundity of long rough dab of the Barents Sea.- ICES  
C.M./F : 19.

KUDRIN (B.D.), PONOMARENKO (V.P.) and MUKHIN (A.I.), 1977.- Results of detection  
and fishery of beaked redfish Sebastes mentella Travin of the east  
Greenland area in 1975-76.- ICES, C.M./F : 14.

PONOMARENKO (V.P.), 1977.- Influence of wintering temperature conditions on the  
survival of young cod and haddock in the Barents sea.- ICES, C.M./F :  
15.

ZAFERMAN (M.L.) and SONINA (M.A.), 1977.- Abundance and biological characteristics  
of beaked redfish Sebastes mentella Travin in the Bear Island-  
Spitsbergen area.- ICES, C.M./F : 9.

II

BARKOVA (N.A.), DOMANEVSKY (L.N.), STIOPKINA (M.V.) and SEDYKH (K.A.).- The  
influence of upwelling on the distribution and some biological  
features of certain fish species along the Northwest African coast.-  
Moscow, Oceanographic Commission of the Academy of Sciences of the  
USSR (theses of reports).

BARKOVA (N.A.).- On the natural mortality of the Atlantic sardine of the central  
east Atlantic.- Rybnoe khoziaistvo.

DOMANEVSKY (L.N.), MYLNIKOV (N.I.) and STIOPKINA (M.V.).- Some peculiarities  
of the feeding of certain fish species off the Northwest Africa.-  
Trudy AtlantNIRO.

BUKATIN (P.A.).- The peculiarities of the biology and distribution of major com-  
mercial fish species from the banks of the Azore and Canarian complex  
in the central-east Atlantic.- Trudy AtlantNIRO.
